OVERVIEW

Opening offices in Australia in 1985, Michael Page has since cemented its position as a leading professional recruiter. Michael Page Technology is a specialist business line with a team of experienced consultants who focus solely on recruiting for this sector.

Our success is founded on a thorough understanding of the local market in Australia, the stability of our management team and our ability to source a consistent stream of quality professionals.

SPECIALISTS IN THE FIELD

RECRUITMENT WITHOUT COMMISSION

In a unique approach within the recruitment industry, our consultants do not work on commission. Our consultants are salaried professionals and are awarded bonus payments based on team performance. This encourages teamwork and better outcomes because opportunities are shared around the entire team rather than being retained for the possibility of individual commission.

GLOBAL BRAND STRENGTH

The Michael Page brand is amongst the most widely recognised in the professional recruitment industry. Our global strength allows us to think and act beyond the boundaries of our location and business disciplines. When combined with our boutique-level understanding of local markets, we have the ability to source the brightest and most appropriate professionals for your business.

A REPUTATION FOR EXCELLENCE

Personal referrals are our largest source of introductions and the majority of candidates register with us as a result of a referral or previous contact. This is a testament to the high level of professionalism and service that has established Michael Page as a market leader in the professional recruitment sector.
